

Company	TUV SUD PSB Pte Ltd
Digital Solution Name & Version Number¹	Cyber Attack Surface Screening and Assessment Services Version 1 - Penetration Testing: Web App Grey-Box (Limited Scope)
Appointment Period	1 June 2020 to 31 March 2021

Standard Packaged Solution (ie. Minimum items to be purchased)

Cost Item	Unit Cost (\$)	Unit	Quantity	Subtotal (\$)	Qualifying Cost * (\$)
1) Software / Subscription fee Not Applicable					
2) Hardware Not Applicable					
3) Professional Services					
Web App Grey-Box (Limited Scope)					
Service Overview: 1. A lightweight service as compared to full-scope penetration test, having a fast turnaround period; 2. Test the login mechanism and session management of the web application; 3. Ensure the first line of defence of the application will not be easily compromised by malicious attackers; 4. Credentials of user account will be provided by the client for the grey-box approach testing; 5. The solution can be used to assure customers that their user accounts are unlikely to be breached by attackers and their personal data in the application can be kept secure.		per web app	1		
Deliverables: 1. Report indicates the findings, steps to replicate the findings, risk rating and recommended solution(s) for each finding;					
Notes: 1. The scope starts from 1 WebApp. Cost will increase at S\$6000.00 per WebApp 2. For scope above 3 WebApps, price will vary based on project requirement.					
4) Training Not Applicable					
5) Others Not Applicable					
Total				\$ 6,000.00	\$ 5,000.00

¹ A higher upgrade of the software version is acceptable, for example solution version 3.x allow anything from 3.0 to 3.99999

* Qualifying cost refers to the supportable cost to be co-funded under the grant

Company	TUV SUD PSB Pte Ltd
Digital Solution Name & Version Number¹	Cyber Attack Surface Screening and Assessment Services Version 1 - Penetration Testing: Web App Grey-Box (Full Scope)
Appointment Period	1 June 2020 to 31 March 2021

Standard Packaged Solution (ie. Minimum items to be purchased)

Cost Item	Unit Cost (\$)	Unit	Quantity	Subtotal (\$)	Qualifying Cost * (\$)
1) Software / Subscription fee Not Applicable 2) Hardware Not Applicable 3) Professional Services Penetration Testing: Web App Grey-Box (Full Scope) Service Overview: 1. Includes all the assessment in the limited scope and also test cases based on OWASP and MITRE which are not covered in the limited scope; 2. Covers test cases from OWASP Top 10 2013-2017, injection based attacks as well as privilege escalation; 3. Credentials of user account will be provided by the client for the grey-box approach testing. 4. Assurance to customers that the web application is not affected by the common vulnerabilities that web application are subjected to. 5. Customers can feel confident that their Personal Identifiable Information will be handled securely while using the web application. Deliverables: 1. Report indicates the findings, steps to replicate the findings, risk rating and recommended solution for each finding; Notes: 1. The scope per lot is based on 25 Web Applications functions (READ, CREATE, UPDATE, DELETE). Every additional lot is charged at \$8000.00. 2. For system above 2 lots (>50 functions), price will vary based on project requirement. 4) Training Not Applicable 5) Others Not Applicable		per lot	1		
Total				\$ 8,000.00	\$ 5,000.00

¹ A higher upgrade of the software version is acceptable, for example solution version 3.x allow anything from 3.0 to 3.99999

* Qualifying cost refers to the supportable cost to be co-funded under the grant

Company	TUV SUD PSB Pte Ltd
Digital Solution Name & Version Number¹	Cyber Attack Surface Screening and Assessment Services Version 1 - Penetration Testing: Endpoint Black-Box
Appointment Period	1 June 2020 to 31 March 2021

Standard Packaged Solution (ie. Minimum items to be purchased)

Cost Item	Unit Cost (\$)	Unit	Quantity	Subtotal (\$)	Qualifying Cost * (\$)
1) Software / Subscription fee Not Applicable					
2) Hardware Not Applicable					
3) Professional Services Penetrating Testing: Endpoint Black-Box Service Overview: 1. Targets the vulnerabilities of an endpoint from an attacker's point of view; 2. The objective is to mimic real-life hacking scenario that an attacker is trying to gain access to the endpoint without any prior knowledge; 3. Credentials are not required for the testing in order to simulate real-life hacking attempt; 4. Used to assure customers that the endpoint is unlikely to be subjected to an external attack. Deliverables: 1. Report indicates the findings, steps to replicate the findings, risk rating and recommended solution for each finding. Notes: 1. The scope starts from 1 endpoint per lot. Cost will increase at S\$5000.00 per endpoint. 2. For scope above 4 endpoints, price will vary based on project requirement.		per lot	1		
4) Training Not Applicable					
5) Others Not Applicable					
Total				\$ 5,000.00	\$ 5,000.00

¹ A higher upgrade of the software version is acceptable, for example solution version 3.x allow anything from 3.0 to 3.99999

* Qualifying cost refers to the supportable cost to be co-funded under the grant

Company	TUV SUD PSB Pte Ltd
Digital Solution Name & Version Number ¹	Cyber Attack Surface Screening and Assessment Services Version 1 - Security Configuration Review
Appointment Period	1 June 2020 to 31 March 2021

Standard Packaged Solution (ie. Minimum items to be purchased)

Cost Item	Unit Cost (\$)	Unit	Quantity	Subtotal (\$)	Qualifying Cost * (\$)
1) Software / Subscription fee Not Applicable					
2) Hardware Not Applicable					
3) Professional Services Security Configuration Review Service Overview: 1. Reviews the configuration settings of operating systems, databases, devices etc against cyber security hardening industry benchmarks; 2. Ensure that systems are hardened to the best within their business environment to prevent vulnerabilities from being exploited; 3. Hardening gaps can be identified and rectified accordingly to suit business needs; 4. Used to assure customers that their user accounts are unlikely to be breached by attackers and their personal data in the application can be kept secure. Deliverables: The deliverable will include a report indicating the findings together with the risk rating and recommended solution for each finding. Notes: 1. The scope starts from 5 or less hosts. Cost will increase at S\$600.00 per host 2. For system above 20 hosts, price will vary based on project requirement.		per lot	1		
4) Training Not Applicable					
5) Others Not Applicable					
Total				\$ 5,500.00	\$ 5,000.00

¹ A higher upgrade of the software version is acceptable, for example solution version 3.x allow anything from 3.0 to 3.99999

* Qualifying cost refers to the supportable cost to be co-funded under the grant
